COMPANY ANNOUNCEMENT

Malta International Airport plc (the “Company”)

Traffic Results – August 2017

Date of Announcement 07 September 2017
Reference 263/2017

In terms of Chapter 5 of the Listing Rules

QUOTE

The month of August saw an average of 22,372 travellers passing through the terminal on a daily basis, with this number peaking on the month’s busiest day to reach 26,359 passenger movements.

An unprecedented total of 693,537 passengers passed through the airport, resulting in an increase of 14.8 per cent in August’s traffic over the same month last year. Growth in passenger numbers was achieved in line with an increase of 15.0 per cent in seat capacity.

Aircraft movements increased by 12.9% during the month of August with no less than 4,624 take-offs and landings.

Despite the significant increase in available seats on flights to and from Malta International Airport, seat load factor (SLF), which measures airlines’ efficiency in filling these seats, stood at a healthy 88.1 per cent. This is the highest seat load factor for the year so far.

The airport’s top five markets - the United Kingdom, Italy, Germany, France, and Spain - were responsible for more than 460,000 passenger movements of Malta International Airport’s total traffic for August.
While all of these markets experienced varying levels of growth ranging from 8.9 per cent to 31.5 per cent, the number of passengers from France (+31.5 per cent) and Germany (+22.6 per cent) registered the most significant upturn.

The French market’s growth can be partly attributed to the launch of the Bordeaux and the Tolouse routes and increased capacity on the Lyon route. On the other hand, increased activity from Germany mainly stemmed from added flight frequency on the Frankfurt and Munich routes.

In the first eight months of the year, Malta International Airport welcomed just over 4 million passengers, which is equivalent to the airport’s full-year traffic for 2013.

COMPANY SECRETARY

Some changes in data collection have come into effect as from January 2017, with the numbers reported being marginally different to those reported in previous years. This, however, does not have a material impact on our reported results. If further details are required, kindly contact the Marketing & Brand Development team via communications@maltairport.com.

About Malta International Airport

Malta International Airport is the only airport serving the Maltese Islands, connecting the tiny island state to more than 80 destinations in Europe, North Africa and the Middle East, through over 30 partner airlines. With 97% of all Malta’s tourists flying through it, the airport handles more than 5 million passengers and over 15,000 tonnes of freight annually. Since becoming fully operational in 1992, the terminal has received continuous investment and now accommodates more than 20 retail outlets, 14 catering establishments and parking for over 1,500 cars. Malta International Airport owns SkyParks Business Centre, which contains nearly 10,000m² of Malta’s hardest working office space and 4,000m² of retail and amenities for the business and local community. The building is eco-certified by BREEAM and has become one of Malta’s most sought-after corporate addresses.
